Juny 15th, 1931

Dear Sirs,

We beg to send you the first catalogue of plants of our culture. We are owners of a great nursery of all commercial plants and we are endeavouring to obtain new markets for export trade.

Our firm, established in 1899 in a very modest manner, by Triphon Van Speybroeck, is to-day one of the most important and extensive nurseries of Ghent and its environs, thanks to our personal care and to our high spirit of enterprise. Up till now the greater part of our output was taken by the big Belgian export houses. Our capacity, our long years' experience and our unlimited solicitude give us the certitude that our plants are of quite the first quality, and, consequently we do not fear to compete with other firms as regards prices and quality.

H. M. Albert I, the King of the Belgians, honoured us by visiting our establishment on September 4th 1929 and was highly interested by the different special plants we were able to show him.

Further, we have obtained the highest distinctions and rewards since 1910, at the different exhibitions at Brussels, Antwerp, Liège and Ghent and at the Centennial celebration of Belgium.

We avail ourselves of this opportunity to let you know that, to date from this day, we have adopted for our Firm the name of "Triphon VAN SPEYBROECK & his Sons", and together, we are at your disposal for the execution of your orders for any plants mentioned in our catalogue, that you may be pleased to intrust to us. Triphon Senior seconded by his three sons, Georges, Arthur and Noe, will all take the greatest care to give their customers every satisfaction. To convince yourself of the matter, please be so kind as to let us have a trial order.

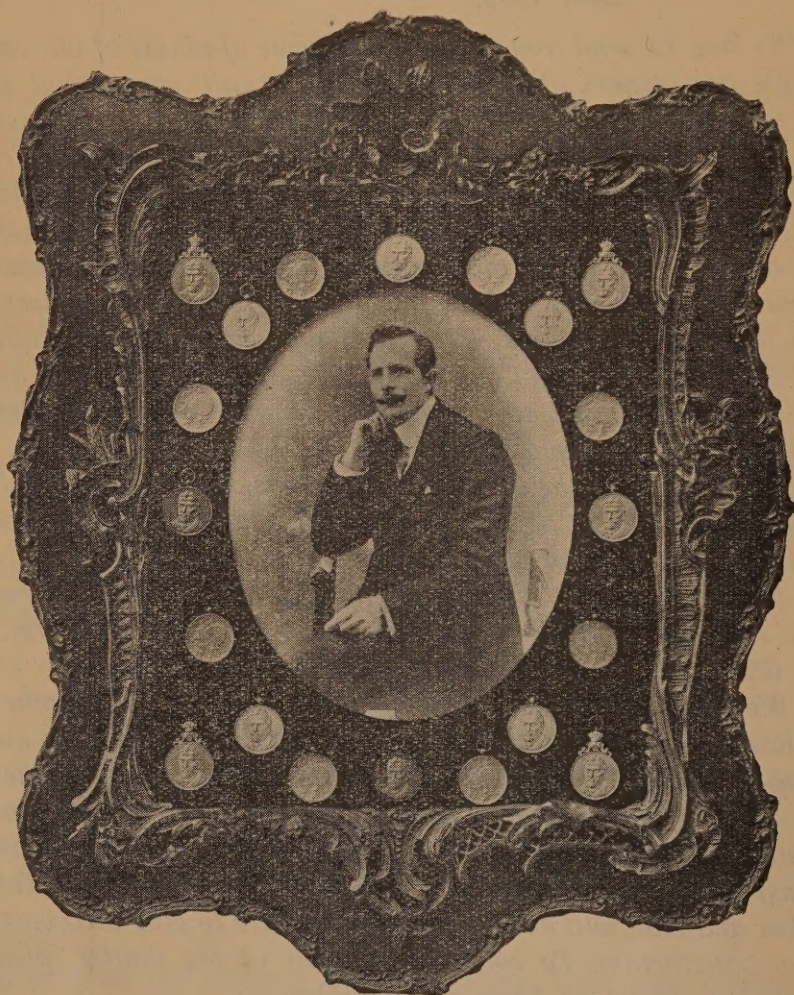

Assuring you of our best services at all times, we remain,

Yours faithfully,

Triphon VAN SPEYBROECK & his Sons

P. S. — We advise important customers to ask for special terms.
